The base fuel price will be established at \$1.16 per gallon. The weekly price issued each Monday by the Department of Energy's (DOE) U.S. National Average Diesel Fuel Index will be used to determine the fuel surcharge applicable for the next seven (7) days. Any adjustments in the fuel surcharge will become effective 12:01 AM, Eastern Standard Time, Tuesday and remain in effect through 12:00 Midnight on the following Monday. In the case of a holiday, fuel surcharge adjustments will become effective the following business day. The table below provides the applicable fuel surcharge amount in five (5) cent per gallon increments.

The computation of the charges provided in item 901 shall be based on line haul charges. Multiply the net charge by the fuel surcharge percentage as provided in the fuel surcharge table. Should the National Diesel Fuel index exceed 336.0 cents, the surcharge will increase in increments of 0.059 cents and percent of surcharge will increase by 0.5%
